

Website Final Review

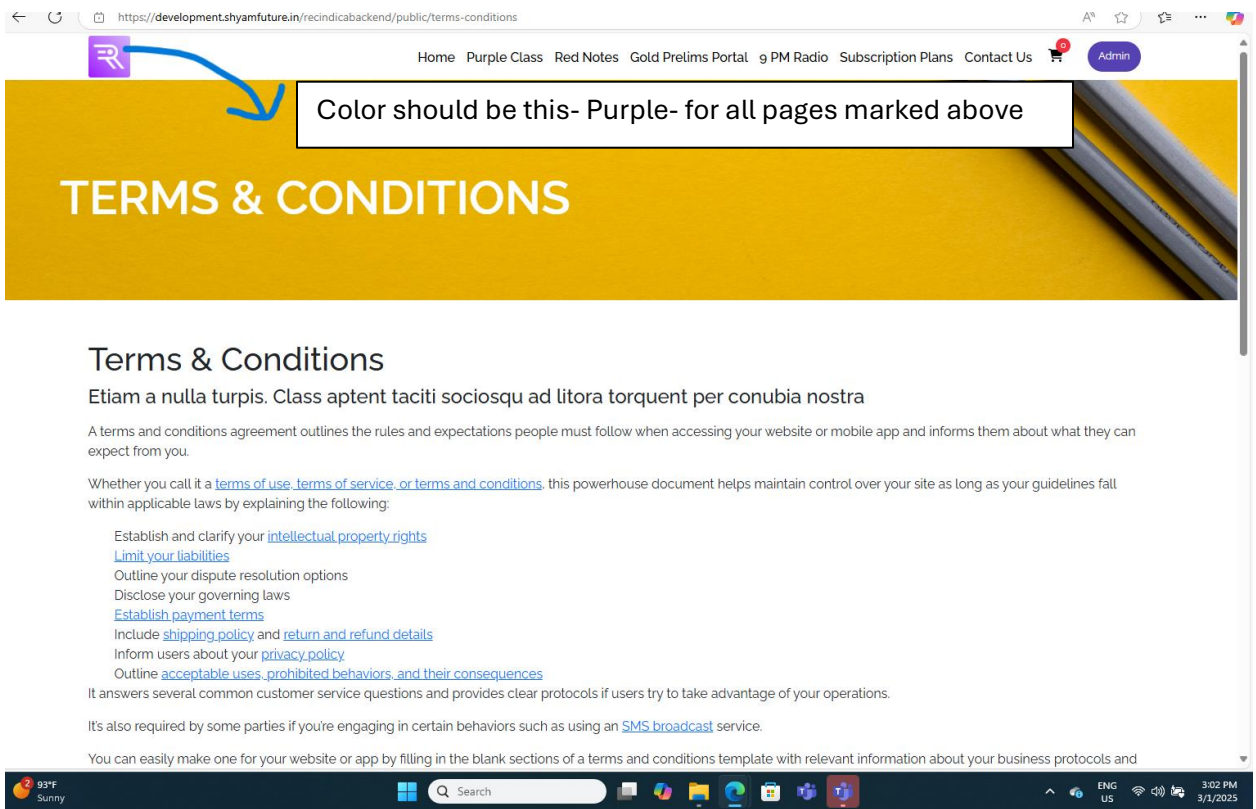

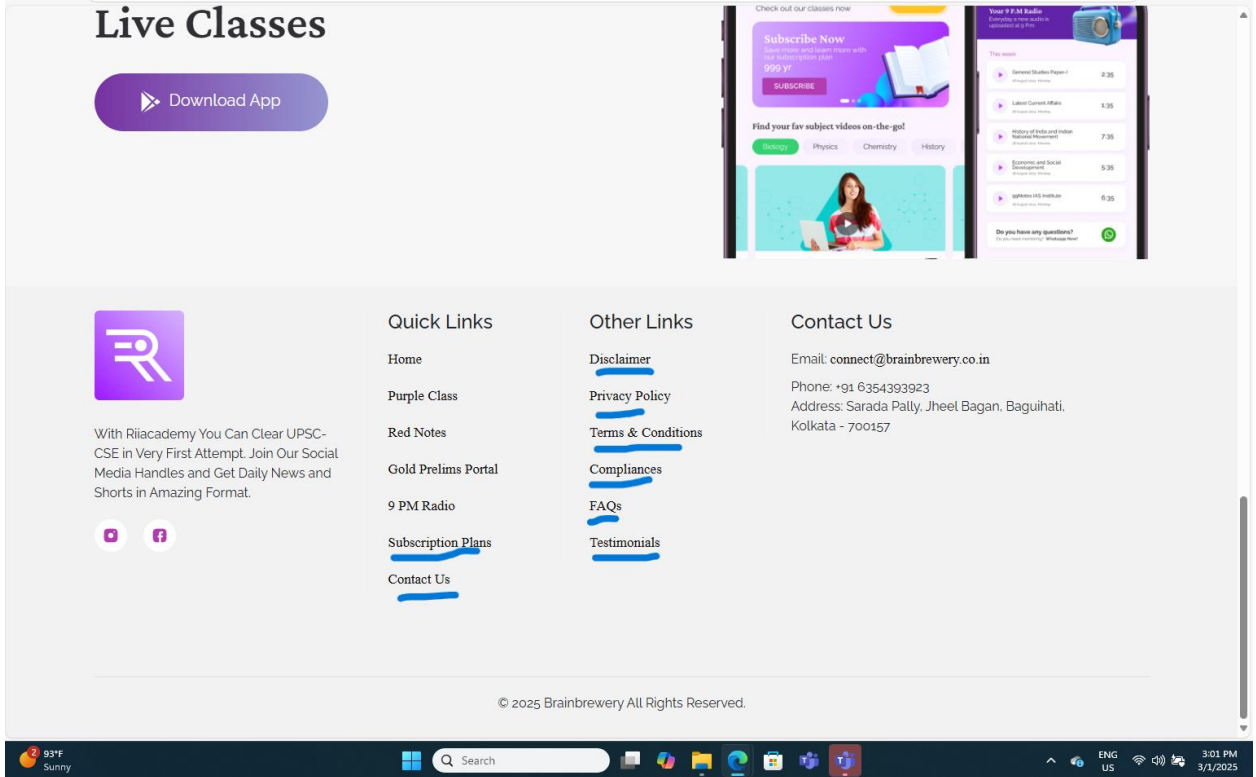

1. These tabs of 9 PM radio at Home Page is shifting on its own automatically when user clicks audio tab. Tabs should only shift right to left only when user slides it.

2. These texts should be changed as written below. Fixed text would work.

3. Yellow color should be changed with purple at the top page banner when these tabs are clicked.

4. Sign up/Sign In forms are coming small in mobile. Difficult to enter details. This form could be enlarged and made bigger.
